

STARTING ON BACKWARD WAY

Russians Determine to Abandon Mukden-- Viceroy Alexieff Arrives at Harbin.

FIERCE FIGHTING IS REPORTED

Russian Rear Guard Is Now Holding Kurki's Army Back, While the Rest of the Troops Make Good Their Retreat.

(Special by Scripps-McLain.) St. Petersburg, Sept. 6.—The Harbin correspondent of the Russian wires that the Japanese are now within twenty-five miles of that city and advancing swiftly. He also reports that the Russians are making all haste to rush the preparations for abandoning Mukden and that the actual evacuation has already begun. Viceroy Alexieff has been taken charge of at Harbin as it is thought the other telegraph lines may be cut. The latest news of Kurki's movements are that his troops are exhausted by continuous marching and fighting of the past week. Kurki's army in the meanwhile is carrying out his retreat in an orderly manner, according to dispatches from Mukden. The commissariat trains have already

BRYAN—That's the apple of my eye, just at the present speaking

TEN THOUSAND IN LINE OF MARCH

Knights Templars Hold Grand Parade in San Francisco This Morning.

(Special by Scripps-McLain.) San Francisco, Cal., Sept. 6.—The Knights Templars, ten thousand strong, marched through the streets today. The city is gaily decorated and a vast throng witnessed the display. The parade was reviewed by the governor and his party. Mayor Schmitz, distinguished English visitors and heads of the order. The first session of the grand encampment was held this afternoon.

YOUNG GIRL RESCUES FIVE FROM THE WATER

Clings to Bridge When Frightened Horses Back into River, and Goes to Aid of Companions.

Auburn, Ill., Sept. 6.—The heroism of two young women, Lulu and Bertha Faust, saved the lives of a party of five, who were hurled from a bridge into the water, fifteen feet below, when the horse which they were driving became unmanageable.

Mrs. Philip Faust and her two daughters, Mrs. Bowman of Grand Island, Neb., and her 9-month-old child, started for Diverson to attend the Labor day celebration. Two miles south of Auburn they started to cross the Sugar Creek bridge, when the horse became frightened. The animal backed the conveyance, which was a double-seated open rig, off the abutment.

As the vehicle fell from the bridge Lulu, the elder of the two girls, clung to the edge of the span. Hanging by her hands, she contrived to pull herself up to the top of the bridge and then made her way over it and down into the water.

SPARKS FROM THE WIRE.

Thomas W. Lawton, the Boston copper king, is said to be a most devoted husband. Recently he gave his wife a gold watch and chain valued at \$40,000.

Mr. and Mrs. Frederick W. Vanderbilt were among the guests of Emperor William at the Sedan day parade.

M. Jusserand, the French ambassador to the United States, and his wife were guests of King Christian at dinner in Copenhagen.

"The Garden of Lies," a romance adapted by Sydney Grundy from the story of Justus Miles Forman, had its first London production at the St. James theater.

Jacob Senger, aged 86, of Rising Sun, Ind., is the oldest mail carrier in the United States.

The son of the late Calvin S. Brice may run for congress in one of the New York city districts.

WOMAN RECOVERS FROM HER WOUNDS

Mrs. George Benway Was Shot in Similar Manner to the Wounds of President Garfield.

(Special by Scripps-McLain.) Madison, Wis., Sept. 6.—Mrs. Geo. Benway is recovering at the city hospital from a wound precisely similar to that which caused the death of President Garfield. She was shot a week ago by her husband because she refused to withdraw divorce proceedings she has instituted against him. The bullet struck in the back, near the side, and plowed its way through the fleshy tissues, imbedding itself in the bones of the spinal column. The surgeons declare it cannot be extracted; they having made several unsuccessful operations. They say the wound is almost identical in nature with that which caused the death of President Garfield. She is apparently assured of recovery. Benway, after shooting his wife, fired two bullets at his own heart with suicidal intent. They missed the heart by about one-sixteenth of an inch. He was at first pronounced dead by a doctor, but rallied and was yesterday removed from the hospital to a cell to await trial for the attempted murder of his wife.

A BOY DIES IN GREAT AGONY

Little Fellow Suffering From Hydrophobia, Dies En Route to the Hospital.

(Special by Scripps-McLain.) Chicago, Sept. 6.—Speeding on a train from Columbus, O., to Chicago in hope of relief by the pasture treatment for hydrophobia, Robert Strickland, a fair haired boy of five years, died on the train last night in the midst of the terrible convulsions incident to the disease.

ACCIDENT IN THE RAILWAY TUNNEL

Trailer on Street Car, Runs Off the Track in the Washington Street Tunnel.

(Special by Scripps-McLain.) Chicago, Sept. 6.—One person was probably fatally injured and a half dozen slightly hurt, this morning in the Washington street tunnel when the trailer of a cable train jumped the track and crashed into the walls of the tunnel. Mrs. Kersten was thrown under the car and her right leg crushed off. The others were jammed between the car and the walls. All traffic was delayed an hour.

Italian Cotton Industry.

The cotton industry of Italy increases in importance and is distributed among 730 factories and employs over 135,000 hands. More than half the factories are worked by steam, the remainder by electricity and hydraulic power. Out of 30,000 looms employed, 60,000 are mechanical. The total production is now calculated at an annual value of over \$12,000,000.

Joseph W. Folk, democratic nominee for governor of Missouri, is a nephew of Senator Bate of Tennessee. Folk's brother is treasurer of the latter's estate.

CORTLEYOU HAS LEFT OYSTER BAY

Attorney General Moody Visited with President This Morning to Discuss Politics.

(Special by Scripps-McLain.) Oyster Bay, Sept. 6.—Chairman Cortleyou of the national republican committee left here quietly this morning. Attorney General Moody was "called" today. He came to give the president his impressions on the outlook in New England. The Italian tramp arrested yesterday at Sagamore Hill was released by order of Squire Franklin, a local justice, who pronounced him as harmless.

WITNESS MAY BE FINED COST OF CONTINUANCE

Judge Intimates That Man Who Caused Delay in Bribery Trial May Have to Pay \$500.

Jefferson City, Mo., Sept. 6.—The case of State Senator Frank H. Farris, indicted on the charge of bribery in connection with the Alum Baking Powder hoax deal, was continued by Special Judge W. W. Graves to Dec. 15, on the representation of Attorney Morton Jourdan that the defense's chief witness, former Senator James C. Orchard, is out of the state. Mr. Jourdan stated that a subpoena was sent to Poplar Bluff, Orchard's home, and returned unavailing.

Judge Graves said he would grant the continuance while at the same time he ordered an attachment issued for Orchard and intimated that the costs of the continuance, if the facts justify it, would be assessed against the Poplar Bluff witness. Orchard, according to Mr. Jourdan, is in Arkansas on business.

Judge Graves held that it was unnecessary to serve the recent subpoena on Orchard, since the summons for his presence issued when the case was previously called should be sufficient notice that he would be required to be here. The cost of the continuance will amount to \$300.

SPARKS FROM THE WIRE

Sir Marcus Samuel, once lord mayor of London, has received the Japanese order of the Rising Sun. Sir Marcus' firm issued the first Japanese gold loan in Europe.

Lord and Lady Roberts will visit the grave of their son in South Africa this fall. The young man, a lieutenant, was killed during one of Gen. Buller's attempts to cross the Tugela river.

The last session of congress provided new medals of honor and according to a recent order of Secretary of War Taft those holding those heretofore issued must turn them in. They will receive the new ones in exchange.

King Edward returned to London from Martenbad, looking in splendid health.

Li Hing Jouei, viceroy of Foo-Choo, and Wei Kouang Tan, viceroy of Nanking, will exchange posts.

The richest women in the United States are said to be Mrs. Cornelius Vanderbilt, Sr., \$80,000,000; Mrs. C. Huntington, \$75,000,000; Mrs. K. J. Walker (daughter of William Weightman), \$50,000,000; Mrs. Henry C. Potter, \$45,000,000; Mrs. Ogden Goodell, \$40,000,000; and Mrs. Hettie Green, \$35,000,000.

GREAT STRIKE IS NOW OVER

Butchers' Union Today Voting to Return to Work--Conference Held Was Successful.

THOUSANDS ASK FOR THEIR JOBS

Began on July 12th--Has Tied Up the Meat Supply of the Whole Country--Will End Tonight, Seems Certain.

(Special by Scripps-McLain.) Chicago, Sept. 6.—Peace is in sight. The disastrous meat strike which has paralyzed the packers' business, has made thousands homeless, and wrought incalculable loss to the country at large, is to come to an end. As the result of the agreement between J. Ogden Armour and President Donnelly held yesterday the unions are today voting on ending the strike and returning to work. Since July 12th this war between employer and employed has been waged. To all appearances now it is all ended. In fact, hundreds of former employees of the yards have already applied for work and it is probable that by tomorrow morning all the former workmen will be on the company's list once more.

The conditions upon which the strike will be settled, it is understood, consist of the following articles: Better conditions of employment. Less politics. The office of stewards of all unions to be abolished. All disputes to be settled by a board of committees representing employers and employees. Less surplus labor. Steady work as far as possible for all employees.

SUPREME COURT HEARS THE FIRST OF ARGUMENTS

Which Was the Republican Convention at Madison, May Be Settled Very Soon.

(Special to The Gazette.) Madison, Wis., Sept. 6.—The legal controversy over the regularity of the two claimant republican state tickets in Wisconsin came before the supreme court this morning. An effort will be made to have the court push the case along with all possible expedition so as to secure an early determination and prevent possible loss of the state for the republican national ticket. Both the administration and stalwart attorneys say they are anxious to have the trouble adjudicated at the earliest possible moment. Each side has apparent hope of winning the decision, but the republican or Spooner faction is resting upon the court for its continued existence, while the La Follette faction declares the administration ticket will be kept in the field no matter what may be the decision of the court. Should the court decide against the republican faction, the Cook ticket will be withdrawn from the field, according to the declarations of Senators Spooner and Charles, who have announced that they hold the national interests over those of the factional warfare of the party within the state.

This morning the administration attorneys—H. W. Chynoweth, R. M. Dabford, of Madison; L. L. Lenroot of Superior and John Harnes of Rhinelander made a strong point on their claim that the supreme court has no jurisdiction in the matter and that section 25 of the revised Wisconsin statutes provides that the old La Follette state central committee shall determine the question as to which claimant convention was regular. It was at first planned to ask that this question be argued and determined separately before the merits of the case be taken up. If at all, but the desire to have the whole matter settled soon is understood to have changed the plan so that only one argument will be held on all the questions involved. The republican attorneys are John M. Olin and H. T. Butler of Madison and George Spooner of Green Bay, with Senators Spooner and Charles of counsel.

When the case was called both sides filed motions with the court, the republicans asking for a writ against La Follette's secretary of state, and the administration attorneys asking that the suit be dismissed until Sept. 15, was set for arguments. The republicans also asked that a temporary injunction, to restrain the official ballot until the litigation decided be granted. This will be argued Sept. 14th.

HONOR THE JEWISH SOLDIERS

Cornerstone for \$15,000 Monument to Civil War Dead Is Laid. New York, Sept. 6.—The cornerstone of a handsome monument to the memory of Union soldiers of the Jewish faith who fell in the civil war was laid Monday in Salem Fields cemetery, Cypress Hills, Brooklyn, under the auspices of the Hebrew Union Veteran association. The shaft will be fifty-two feet high and cost about \$15,000. It is thought to be one of the first, if not the first, erected to the memory of Hebrew soldiers.

Rita Sees Danish King

Copenhagen, Sept. 6.—Jacob A. Rita of New York was received in audience by King Christian, who expressed the most friendly feeling and admiration for President Roosevelt, to whom he sent greetings and also to the Danes of America.

BATTLE OF BULL RUN IS BEING FOUGHT OVER AGAIN

Blues and Browns Are Contending Where the Blues and Grays Did Years Ago.

(Special by Scripps-McLain.) Gainesville, Va., Sept. 6.—The third battle of bull run began at midnight with the placing of outposts by General Bell's army at Brown's thoroughfare and throwing out of the advance guard by General Grant's army of blues stationed at Manassas. In the hours between midnight and dawn Brown's thoroughfare was occupied by General Grant placing his artillery in an advantageous position for an attack on Brown's thoroughfare. The firing from the big guns began at long range shortly after daylight, followed by infantry skirmishes, and then general fighting all along the line.

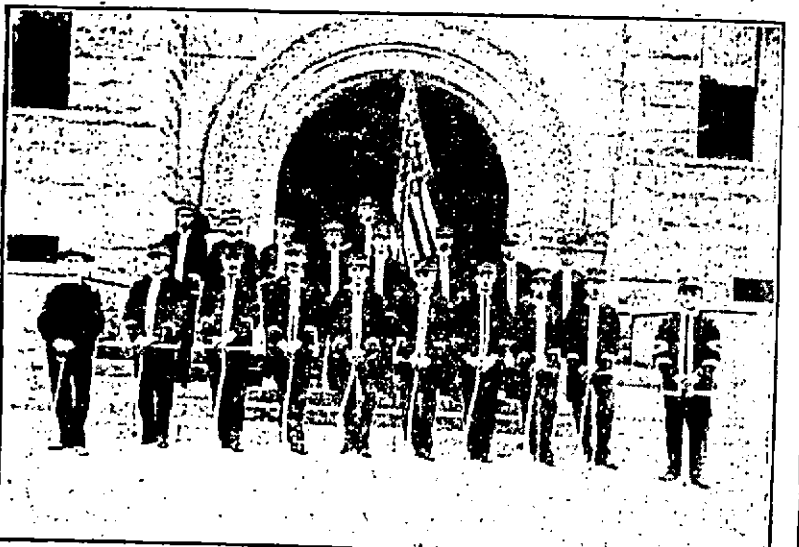

GENERAL KUROPATKIN, RUSSIA'S MINISTER OF WAR.

General Kuropatkin, who is directing the movements of the czar's armies, has about 4,000,000 men to draw upon in wartime and thirty-five years of experience in Russian military affairs to assist him. He is fifty-five years of age, has been wounded several times and has been minister of war five years.

roy Alexieff has removed his headquarters from Vladivostok and is at Harbin with his personal staff to personally conduct the retreat. From Yon Tai comes the word that heavy fighting is going on northeast of the city. The Japanese are pressing along the ridges towards the east railway and several skirmishes have occurred within twenty miles of Mukden to the southeast. The Russians are thus far holding the Japs under Kuroki in check with their rear guard while they are retreating northward to Liaoyang. All communications

DRILLING AT ST. LOUIS EXPOSITION.

The above cut represents the Janesville drill team of the Modern Woodmen who are now in St. Louis. This is the team which will drill for the prizes in the great drill contest to be held this week in connection with the St. Louis exposition. They will drill in conjunction with the Beloit, Madison and Rockford teams under the command of Major C. E. Reynolds of Beloit. The prizes offered for the battalions are: first, \$450; second, \$350; third, \$250; fourth, \$150. Those represented in the above picture are: Sergt. Maj. S. M. Fisher, Captain E. C. Jones, Sergt. C. F. Barriago, O. A. Mable, G. W. Jones, C. L. Canniff, W. F. Harvey, S. W. Sutton, L. Wanley, M. P. Birmingham, H. Rathjen, A. W. Meyer, R. V. Knox, W. F. Day, H. Jacke, L. L. Hilton, W. H. Green, F. J. Hutchinson, W. H. Lohrman, F. M. Vosburg. Captain Jones has selected eight men, whom he has been drilling, to enter the pony team contest. The prizes for this are: first, \$175; second, \$125; third, \$90; fourth, \$75; fifth, \$60; sixth, \$50; seventh, \$30. Those chosen are: Geo. F. Barriago, O. A. Mable, G. W. Jones, C. L. Canniff, S. W. Sutton, L. Wanley, L. L. Hilton, F. M. Vosburg.

IRRIGATION IN SOUTH DAKOTA

GUY MITCHELL POINTS OUT WHAT IT IS NEEDED THERE.

COAL AND WATER ARE HANDY

Use the Coal for Fuel—Pump the Missouri River Water Onto the Dry Soil.

Twenty-five years ago, Major J. W. Powell, the greatest American authority on irrigation, told the people of North Dakota, at their constitutional convention, some plain facts about this semi-arid section which they were then loth to believe, but which have since proven only too true. He told them that in the western portion of the state there would have to depend on irrigation and that in the eastern part they could grow good crops with natural rainfall; but that in the middle portion an entire dependence upon rainfall must ultimately bring disaster; that they would have a series of years when there would be abundant crops, and then for a number of years there would be scant rainfall when crops would fail and disaster and discouragement would overtake thousands of people. Up and down the temperature of agriculture would rise and fall with the seasons—the lean years and the fat. "You will," he said, "hang to yourselves the delusion that the climate is changing. This question is 4000 years old. Nothing that man can do will change the climate. There is almost enough rainfall, but one year and another you need a little more than you get. It is flowing past you in your rivers."

These words seem truly prophetic as the history of the Dakotas is reviewed, back 25 years. The lean years came and the fat years—the years when there was plenty of rain and the soil produced abundantly, and the cycles of lean years came, when the farmers watched in vain for the fruiting rainfall and their crops burned to a brown and a crisp and finally they abandoned their homes by hundreds and by thousands.

For three years in succession during that period, I was told, land which before and since yielded 20 bushels of wheat per acre, produced but two bushels, while thousands of acres were never harvested.

A Waste of Wealth.
And the wealth of an empire is going by in the rivers as Major Powell stated—flowing uselessly to the ocean. That is apparent enough to anyone visiting the country. How to get the water onto the land is the question. For the very reason that dry farming may succeed, but little interest has been taken in irrigation. But the farmers of North Dakota are awakening. They are realizing that it is a false pride which proclaims that irrigation is not needed, for with irrigation they will have a safe and sure crop and one vastly more productive. The business men, too, are beginning to see the small farms intensively cultivated and made to produce the maximum yield, contribute much more to the growth and up-building of the state than do large ranches, half farmed, or wild hay land.

The Forceful Missouri!
A certain western senator, in a cloakroom conversation on irrigation last winter, stated it as his belief that the Missouri could be dammed at various points and all its flood waters saved for irrigation. This statesman was from the far, far west, where all things are easily possible. The Missouri is a vast yellow giant. It flows through North Dakota, even in low water time, a titanic mill-race, in which a strong swimmer may perhaps trust himself, and he swept down stream as fast as a man can run. In flood, when the Rocky mountain snows are melting, it is the embodiment of power if not destruction, tossing its tawny mane as it sweeps before it millions of tons of earth, cutting out new channels and building up new lands miles and miles in extent. Some day, it may be possible to put in a great dam a couple of miles wide at one or two points where the river is confined between high sandstone bluffs, but this would be a work which, while it would create a great empire of its own, would make the Nile dam, its 25 millions of cost, sink into comparative insignificance.

What Can Be Done Today
But there are other means of making the Missouri contribute to American prosperity. Your correspondent was fortunate enough to take a trip of some hundred miles on the river on a steamer, piloted by the last of the old-time river kings, Captain Grant Marsh, famous as a pilot and river explorer, under Custer, Forsythe, Sheridan, Miles, and an important factor in many Indian expeditions. There was little in common in my uneventful trip and such a one as when Captain Marsh brought back to Bismarck the first news of the dreadful Custer massacre, which made 26 widows of army officers stationed at Fort Lincoln, just across the river, and brought likewise a score of wounded soldiers from Reno's detached troops. The Sioux have had their passing and ranchers and farmers may dwell and till with fear of swift annihilation from marauding hordes. But from the pilot house of the little steamer I could discern, in the not far future, a development along the Missouri, which would work a yet greater change than that of the past decade. For hundreds of miles the river is encompassed by steep bluffs from 200 to 250 feet high and from two to three miles apart. Between these, the river winds, a stream of from a quarter to a half mile wide gradually changing its course from side to side, but forming great areas of "bench" lands, twenty, thirty, and fifty feet high—hundreds of thousands of acres of surprisingly fertile soil, needing only irrigation. And the watering of this land turns out to be among the easiest of projects.

Rich Coal Beds for Pumping
Every bluff of the Missouri showed a coal vein of from 6 inches to 12 feet in thickness; in fact enormous

areas of North Dakota are underlain with splendid lignite coal, worth at the mine only a dollar a ton. There you have it. The water of the Missouri, a limitless, ceaseless supply, just above it land, made by centuries of river sediment and immediately at hand, one of the cheapest known ways to pump the water onto the land. It did not take an engineer to see the feasibility and cheapness of this undertaking.

But why, I asked myself, had it not been done? Why had not farmers themselves put in windmills and small pumps? Was there, after all, some insurmountable obstacle? No. Talks with a few of them showed them as ignorant of irrigation and its simplicity as are the farmers in Vermont. In fact they were "rainfall" farmers and they spoke of irrigation as a mysterious and complicated process.

Uncle Sam to Pump the Missouri
My return to Bismarck justified my conclusions. I found two government engineers even then investigating the problem, and far beyond supplying the great areas of lower benches, they propose to elevate the water a hundred and possibly two hundred feet, out onto the great mesas. I left them preparing for a trip down the Missouri from the Dakota-Montana line, in a small skiff, on a careful reconnaissance of the Old Muddy, its tributaries and its lands. If they find conditions as favorable as they would seem, a party of surveyors will be put upon the project at once to make surveys and detailed plans, to be followed by the installation of giant pumps, water engines each of which will create a small river.

This work of the government is fraught with unbounded possibilities for North Dakota. A great empire lies latent in the midst of the state, the worth of which her own people are but beginning to comprehend. The fertility of the ages is stored in the black soil and the water of half a continent flows by, an unused agent of wealth. The day of great things for the land of laughing water may be close at hand.

GUY E. MITCHELL.

CANNING FACTORY BEGINS CAMPAIGN

Machinery of P. Hohenadel, Jr., Concern Begun To Move This Morning—Force of 75.

The P. Hohenadel, Jr., canning factory commenced its fall work this morning. The machinery was tested and placed in running order yesterday and this morning a force of seventy-five, including a large proportion of girls, was at work. Much of the corn is ready for the harvest and the long caravan of teams will soon be winding its way towards Spring Brook with the raw products, to be converted into the finished "Pride of Janesville."

FOUR NEW MUSICIANS ARE ADDED TO THE ORCHESTRA

Recruits for Operahouse Organization Arrive from Several Cities.

Janesville's orchestra talent has been increased by the arrival of four skilled musicians who are to be permanent additions to the operahouse organization led by Prof. Lake. They are: Earle C. Moore, cornet player, late of Illinois, Mich.; Charles V. Curtis, bass, of Lansing, Mich.; Harry E. Howard, trap drummer, of Boston; and W. J. Newton, slide trombone, of Anaconda, Montana.

PYTHIANS OF CLINTON WERE HOSTS AT DANCE

Several Knights from Janesville and Beloit in Attendance Last Night.

Several Pythians from Janesville and Beloit attended the dance given by the Clinton lodge last evening. Smith & Kneff's orchestra from this city discoursed its finest music and a merry time was enjoyed by all who participated.

ALL HAD A GOOD TIME AT THE ASSEMBLY HALL

Grand Ball Which Closed Labor Day Celebration Attended by Over a Hundred Couples.

Over one hundred couples participated in the grand ball at Assembly hall which closed the Labor day celebration last evening. There were appropriate and tasteful decorations and all of the arrangements were carefully planned and in keeping with the occasion. Baldwin & Rehfeld's orchestra played until one o'clock.

JANESVILLE TEAM WON FINAL GAME

Defeated Port Washington Handily Yesterday by the Score of 9 to 3—Sullivan Played Star Game.

Another good sized crowd at Yost's park yesterday saw the Port Washington baseball team trimmed by the second time by the local players. The final score was 9 to 3 in Janesville's favor. Matthews pitched for the visitors but failed to mystify the home boys, while Ruhlman for Janesville did some fine work in the box. Sullivan played a star game and showed himself to be one of the best players.

MELODRAMA PLEASED GOOD SIZED CROWD

"The Little Outcast" Was Presented by Competent Company at Myers Theatre Yesterday.

Good sized audiences witnessed the afternoon and evening performances of "The Little Outcast" at the Myers theatre last evening. The melodrama was filled with action and exciting climaxes and was adequately presented by a competent company.

ELECTION OFFICERS HAVE BEEN CHOSEN

Col. W. B. Britton, From First Ward, Declines Reappointment, After 25 Years' Service.

After twenty-five years of continuous service on the election board of his ward, Col. W. B. Britton is satisfied that he had done his duty and has declined reappointment. Several others whose service has covered much shorter periods have also refused to serve longer. The appointments made last night were as follows:

First Ward
Inspectors—C. H. Eller, George H. Davey and J. P. Baker.
Clerks—George Woodruff and J. D. Dowling.

Second Ward
Inspectors—S. C. Burnham, F. F. Pierson and J. S. Doran.
Clerks—A. C. Jenkins and E. E. Clemons.

Third Ward
Inspectors—George J. Davis, H. J. Cunningham and O. A. Oestreich.
Clerks—H. D. Murdoch and E. A. Roessling.

Fourth Ward
Inspectors—W. J. Hemming, W. E. Spicer and M. McKelme.
Clerks—John T. Wilcox and Otto E. Smith.

Fifth Ward
Inspectors—George T. Croft, J. A. Sutherland and Otto Rudolph.
Clerks—H. M. Joyce, Jr., and F. O'Donnell.

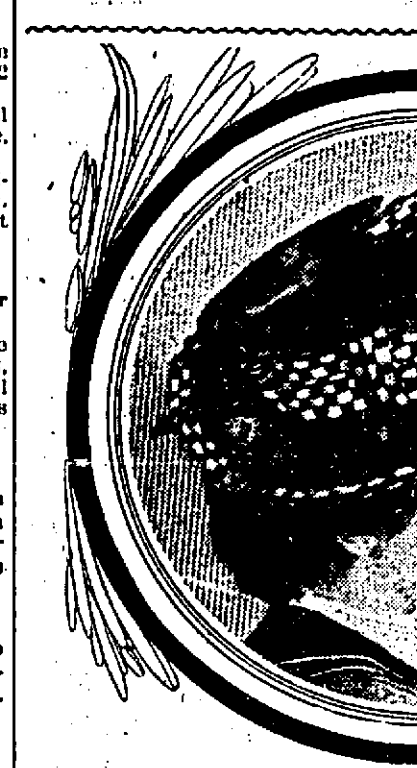

ORGANIZE CLUB AT MILTON JUNCTION

Roosevelt-La Follette Club Was Organized on Saturday with Large Membership.

According to a letter sent to the Gazette by J. H. Owen of Milton Junction a La Follette-Roosevelt club was organized at Milton Junction last Saturday evening with a hundred and fifty members to start on. The officers elected were: Pres., Rev. C. M. Starkweather; vice-president, C. E. Marquart; secretary, J. H. Owen; and treasurer, W. H. Morgan. The letter concludes with the statement that there is no doubt about the feeling in the vicinity of Milton Junction on the political situation and that farmers are especially wide-awake to the situation. There was a similar club recently organized at Center and at a recent meeting plans were made to form it into a marching club with uniforms.

What Is Home?

Home is not a name, nor a form, nor a routine. It is a spirit, a presence, a principle. Material and method will not and cannot make it, says a writer in the Cooking School. It must get its light and sweetness from those who inhabit it, from flowers and sunshine, from the sympathetic nature which, in their exercise of sympathy, can lay aside the tyranny of the broom and the awful duty of endless scrubbing.

A STUNNING BLACK AND WHITE EFFECT

Quite the most novel of the full tailored hats are of braids—not millinery braids, but dress braids, such as one buys at the trimming department. The one shown here is in black with gray braid, sewed smoothly over the foundation frame, which rolls high at the life side, flattening over the crown. The trim is bound and the crown banded with a fancy braid of black velvet and white silk, interwoven kindergarten fashion. Glossy black wings lie close on the crown and on the side roll.

QUARTERLY REPORT OF THE FIRE CHIEF

Shows Fifteen Calls to Subdue Flames Within the Past Three Months—New Equipment.

The quarterly report of the fire chief was listened to with great interest at the meeting of the city council last evening. It was as follows: To the Honorable, the Mayor and Common Council of the City of Janesville:

Gentlemen—I herewith submit my report for the quarter ending August 31, 1904:

Since the date of my last quarterly report, June 1, 1904, the department has responded to 15 fire alarms. The most serious fire during this period occurred on the morning of July 4th, being in the Rock River Cotton Co. plant on North Franklin street. This fire caused an insured loss of \$18,596. At this same fire L. B. Carlo & Son suffered an insured loss by smoke and water to the amount of \$3,927.23; making a total insured loss of \$22,523.28 on both places.

In view of the fact that an order has recently passed the council for the purchase of a site for the erection and construction of a fire station thereon; and as it takes months to procure some of the necessary apparatus in properly equip this station, I would respectfully ask that the fire and water committee be authorized to purchase the following equipment: Hoses, hose wagon, harness and hangers, kerosene heater, tower, ladder, extinguishers, ladders, sliding poles, stoves, furniture and such other articles as will be necessary to make this station habitable.

About one year ago I called the attention of your honorably body to the condition of the dry pipe line over the Jeffris Co. plant, this is in no condition to be used, by reason of the pipe being split in a number of places and should be repaired or removed.

The horses in the department are at this time in good health and condition. One horse was recently purchased which has proved exceptionally good for this service, the old horse which this year one has supplanted was loaned to the police department.

It gives me great pleasure at this time to inform your honorable body that all wagons referred to in my previous reports as being in bad shape, are now in first-class condition. An our horse feed is about exhausted I would respectfully ask permission to purchase a year's supply, as has been the custom.

Last December I made the request that more fire hose be procured and as the need of the same is apparent, I would respectfully recommend that 1,000 feet be purchased immediately.

I also desire to report that I have recently received a donation of \$100 from a citizen, for as he expressed it, "good services performed" at a fire in which he was interested, which said amount I have turned over to the president of the Firemen's Relief association.

Respectfully submitted,
J. C. KLEIN,
Chief, Engineer.

JAIL FOR ZIEGLER PRISONERS

Two Men Accused of Violating Federal Injunction Are Sentenced.

Springfield, Ill., Sept. 6.—John H. Van Gordon, charged with violating an injunction in a suit brought by the Ziegler Coal company against the United Mine Workers and others, pleaded guilty in the United States court and was sentenced to serve one year in jail. Hollon, another prisoner, was given a sentence of six months on a similar charge. Both were accused of firing on trains en route to Ziegler mine with nonunion miners. Van Gordon admitted trying to wreck a train Aug. 10, saying as an excuse that he was drunk.

SCHOOL CHILDREN ON 'KE

Pupils at Springfield, Ill., Go to New Build.

Springfield, Ill., Sept. 6 of school children was the pupils in the south city. When the bell at the remote school rang Monday, none of the children in the district paid any attention to the summons. They are supported in the strike by their parents. The trouble is due to a change in district boundary lines.

CITY FATHERS IN REGULAR SESSION

Transacted Considerable Routine Business, and Decided to Build Two Drinking Fountains.

With all the aldermen save Frank Jackson and C. H. Schwartz present, the city council transacted considerable business at its session last evening. Mayor Hutchinson appointed as special police officers without pay: George Phillips, M. McVett, John Dalton, and George L. Phelps. The city engineer was authorized to contract with Chas. C. Stowell of Rockford for the construction of drinking fountains on the Corn Exchange and in front of the Courthouse park at a cost of \$140 each. Approval was given to the sale of the issue of Garfield school bonds to the Bower City bank for \$15,142.67. Katie Richter's notice of injury was referred to the Judiciary committee. A measure contemplating needed repairs on the Courthouse park and Corn Exchange display fountains was passed without opposition. Instructions were given the street commissioner to build a temporary storm sewer on South First street from Main to the river and to build a cement walk to the Mule culvert. A purchase of necessary garbage cans by the chairman of the sewerage committee was authorized. George Scheller's complaint, offering to sell a building on High street between Rock and North for use as a voting booth, was referred to a special committee.

EXCELLENT SCORE MADE BY SCHALLER
Negotiates the Golf Course in 37—Colonel Bogles Score Is 41—Other Golf Gossip.

Labor day was celebrated by the golf enthusiasts yesterday morning and afternoon. Links were covered with players, the weather being ideal for good golf. Don Van Wart, Frank Van Wart, City Clerk Foster and M. H. Hanna of Beloit were on the course in the afternoon. On Sunday morning Al Schaller negotiated the eighteen holes in 37. This is the first time this record has been made this year. Last year Harry Carter had the same record and two years ago Schaller also made it in 37. "Col. Bogles" is 41. The course is in excellent shape and it is expected that the playing will continue until the snow flies this year. On Tuesday next the qualifying round for the Fifeid trophy will be played. This is for ladies only and a consolation prize is offered for those who fail to qualify in the first round. Yesterday afternoon Mr. Frank Fifeid spent considerable time on the porch of the clubhouse. It will be remembered that Mr. Fifeid broke a leg and sprained an ankle in a runaway short time ago and this is his first official visit at the clubhouse since his accident.

DAY OF CLUB AND BLUDGEON PASSED

FUTURE ADVANCEMENT TO BE MADE BY INTELLECT.

THE LABOR DAY ADDRESS

Delivered by J. B. Brower Held a Large Audience at Court House Park Yesterday.

J. B. Brower of Elgin, Ill., speaker of the day at Labor's celebration yesterday, held the attention of a large audience for over two hours in the Court house park yesterday afternoon. He proved to be an orator of great power, gifted with a fine voice which could be plainly heard by anyone within the radius of a block. He discussed the issues and questions which unionism has to meet in a forceful and convincing manner and for the most part his address was temperate and unimpassioned. In this age of gigantic production of wealth at a minimum cost, the labor which produced it was entitled to its just share.

Day of Club Is Past

The struggle between the wage earner and the capitalist must go on, but the world has gone too far for the club and bludgeon to be weapons of any considerable power. If men but open their minds to the problems that confront them, give closer attention to the duties of citizenship; if those who are most affected by laws enacted in legislative halls will

YESTERDAY'S LABOR PARADE ON WEST MILWAUKEE STREET

keep an unrelenting watch on their representatives, there need be no fear but that the majority of the people will be right.

Compliments Local Unions
The speaker said that he was proud to bear the word on that Janesville had a citizenship that was intelligent enough to care for itself and labor organizations that were sane. The fact that the business men here had refused to receive the emissaries of "HARRY" was a cause for congratulation. Janesville, with its twenty-eight labor organizations, not one of which had ever given back its charter, and 800 members in good standing on their rolls, should be a happy and progressive city. The common life of the common people was the warp and woof of the whole city life. For the money that goes into the pockets of the laborers is re-invested in the community in which they live.

Some Bitterness
The speaker spoke with some bitterness of the meat strike in Chicago, saying that two thousand of the creatures who had taken the places of the union men, whom he had seen on the previous day, were depraved beings who could only be raised to the semblance of manhood by a second coming of the Savior. Pointing to Janesville's Carnegie library he said that the names of men who had lifted up their voices for humanity would live when the names of professional philanthropists and money grubbers had been buried in oblivion.

LOCAL JOTTINGS
Pleasant Surprise: On Saturday evening last a pleasant surprise was tendered "Auntie" Kate Stockman by her many friends and relatives. Among those present were Mr. Cuts and family, Oliver Osmond and family, J. T. Dumanan and family of Harmony, and other friends. Mr. Dumanan was quite seriously injured in a runaway which occurred as he was returning home from the party. Slightly better: Mrs. William Ruger, Sr., is confined to her home by illness.

Headquarters Here: T. E. Grant, night clerk at the Capitol house in Madison, terminated his connection with that hostelry Sunday morning and will travel for the Wisconsin Telephone Co. with headquarters at Janesville. His home is in Dodgeville.

Buried at Edgerton: The remains of the late George G. Randall of Beloit, whose death occurred Sunday, passed through the city this morning en route to Edgerton where funeral services and interment will take place this afternoon.

Attend Medical College: Jay Dudley and Carl Schmidt left yesterday for Milwaukee where they will attend medical college. Both young men have had a few years' practical experience in the pharmaceutical profession and will now complete their training.

Work Saturday Afternoons: The Parker Pen company, who through the summer months have shut down at one o'clock every Saturday afternoon, commenced last Saturday to work full time.

Euchre Club Meet: The Ladies' Euchre club enjoyed a pleasant afternoon session with the cards at the golf links this afternoon.

Bridge Inspector: The appointment of George H. Crane as city bridge inspector at a salary of \$3 a day, was confirmed at the council meeting last night. He will serve during the building of the Court street structure.

Bargains in second-hand school books at Skelly's bookstore.

TRIED TO ENTER PALMER HOSPITAL

DARING THIEF CAUGHT PRYING BUTTON OFF SCREEN.

USED LADDER TO AID HIM

Was Frightened Away by Physician Who Was Watching with a Patient.

Burglars have not deserted Janesville. Their inactivity in the past month cannot be taken as a criterion that the gentlemen of the velvet foot-steps and the hute longing for property not belonging to them have sought other climes. As late as Sunday night last a burglar tried to enter or rather forced an entrance into the Palmer Memorial hospital. He was frightened away before gaining his desired object but it showed clearly that all the burglar scare of the past summer is not over.

The burglar made his attempt at the hospital late Sunday night. Dr. Edden who was sitting up with a patient in a room about eight feet above the ground, with the gas turned very low, was attracted by a noise at the window and on looking discovered a man standing on a step-ladder reaching with a long pole to turn the button holding the screen. Evidently the man saw Dr. Edden at the same time he was discovered, for he jumped from the ladder and ran around the north side of the hospital and disappeared.

Entered Barn and Shed
The would-be burglar evidently searched for a ladder as traces were found in the barn and woodshed of his presence, and the ladder used was taken from under the porch during some of the work when a burglar will try to enter a lighted house and it is certain no amateur would undertake the job. A nurse is on duty in the building night and day, making her rounds, and a local thief would not have dared to try and enter a building where he could be readily detected.

Lying Quiet
Since the epidemic of petty burglaries last July and the first of August the city has seemed free from thieves. Whether they really did leave Janesville until the hue and cry were over is not known but it is certain that after the publicity given the robberies and attempts in the Gazette they ceased. It would, however, be a safe thing to see that all the doors and windows are securely barred at nightfall now, as after the sun sets it becomes dark rapidly and a petty thief could easily do his work early in the evening.

CARELESS DRIVER RAN OVER A BOY

Allie Razook's Son Hurt by a Careless Driver on Milwaukee Street Yesterday.

Monday afternoon when the Imperial band was parading down Milwaukee street the nine year old son of Allie Razook, the Main street candy man, was struck by a horse attached to a buggy driven by a young man, and thrown to the ground and run over. The accident occurred in front of the People's Drugstore and the little fellow was carried in there. Beyond being covered with dirt and a slight bruise on the right knee he did not seem to be injured. His father was notified and the boy taken to his home. The young man driving the horse was accompanied by two girls, and beyond looking out of the side of his buggy at the fallen boy, did not stop but drove rapidly off up Milwaukee street. When brought into the drugstore the little fellow did not let a whimper out of him, although he was badly frightened and bruised.

OBITUARY

Evelyn Wray
News has reached relatives in this city, of the death of Miss Evelyn Wray, daughter of Mr. and Mrs. Charles Wray of Chicago, who died at the home of Mrs. Wray's parents in Freeport, Ill. Mrs. Wray is a son of Mr. and Mrs. J. C. Wray of this city, and his many friends will sympathize with the bereaved family in this their hour of sorrow.

NEWS OF A PERSONAL NATURE

I. U. Fisher of Evansville is in the city today. Chief of Police Schofield of Beloit was in the city on business today. Miss Laura M. Frazier of Delavan, Ill. is the guest of Miss Ivy Poorman, having arrived from Chicago last Friday.

True Economy.
In order to practice true economy it is necessary to distinguish between necessities and luxuries. Economy consists in getting the thing needed at the right time. One luckless man talks of having spoiled a \$4 set of tools while economizing in the matter of purchasing a can opener. After the destruction of the last knife he bought the much-needed article. He is not alone in such experiences. We can all plead guilty.

Father of Golf.

The man who was largely responsible for the introduction of golf in this country, Robert Lockhart, died recently in Edinburgh, Scotland. He was for years a linen importer in New York, and organized the first golf club in the United States in Yonkers, N. Y., in 1885. It was known as the "Apple Tree Gang." Subsequently he founded the St. Andrew's Golf club.

Couldn't.
Said he: "You're a peach. Fly with me?" She replied as she dashed his hope: "You're mistaken. A 'peach,' do you say? Well, I'm not—I'm a cantaloupe."

PRETTY CEREMONY HELD YESTERDAY

Miss Nina Lee Campbell Weds Mr. Frank W. Judd at the Home of Her Parents.

At five o'clock yesterday evening at the home of the bride's parents, Mr. and Mrs. A. J. Campbell, 24 Milton avenue, occurred the marriage of their daughter, Nina Lee, to Mr. Frank W. Judd of Chicago. The Rev. A. H. Barrington spoke the words which united the happy couple as man and wife. The spacious parlor where the mystic knot was tied, was most beautiful and artistically decorated in white and green; the drawing room in yellow and green, and dining room in red and green. After congratulations a most delightful four-course dinner was faultlessly served by Miss Richardson, caterer. Miss Campbell is an accomplished, young lady of music and refinement, and needs no introduction as she is widely known in this community and Janesville fair sex. Mr. Judd is not an entire stranger, is a young man of sterling worth and of high character and standing, being a most trusted employee of the Wells, Fargo & Co.'s express, for the past seven years as money clerk in Chicago, which city Mr. and Mrs. Judd will make their future home, after an extended wedding-tour to St. Louis, Chattanooga, Buffalo, New York city and other places of interest in the east. Their many friends extend most hearty congratulations, and best wishes. They will be at home to their friends after Oct. 1st, at No. 6224 Ingleside avenue. Those from out of the city were Mr. and Mrs. Cline, Kettnerbach and Mr. Clark Judd of Chicago, Mr. and Mrs. John Campbell of Highland Center, and Mr. Frank Campbell of Beloit.

WEDDING BELLS ON SOUTH MAIN STREET

Nuptials of George Marks of Beloit and Mattie Parmley, Celebrated Last Evening.

George Marks of Beloit and Miss Mattie Parmley of Janesville were happily wedded at the home of William Ross, 223 South Main street, at eight o'clock last evening. Rev. J. H. Tippet was the officiating clergyman and the ceremony was witnessed by a large number of invited guests. Following the congratulations a delicious supper was served and later in the evening the happy couple took their departure for Beloit—their future home.

AGED LADY HAS SERIOUS STROKE

Mrs. E. T. Pomroy Stricken with Paralysis on Saturday Afternoon.

On Saturday afternoon last Mrs. E. T. Pomroy, who lives at 26 Dixon street, was stricken with paralysis while descending the stairs in her home. She fell unconscious and except for showing signs of recognizing a daughter, Mrs. Holmes who arrived from Philadelphia last night, has remained unconscious. Dr. Woods, the attending physician, says that it is a case of almost total paralysis, she being unable to articulate or use her vocal organs at all and but move her limbs slightly. Mrs. Pomroy is seventy-eight years of age and came with her daughter, Miss Mary Pomroy, about a year ago from Milwaukee.

ENROLLMENT FOR FIRST SCHOOL DAY

Amounted to 2,618 Scholars in All the Schools—An Increase Over Last Year Expected.

Non one needed to be reminded this morning that vacation was over for the school children. Carrying their books and tablets under their arms hundreds of them thronged the streets this morning, giving the whole city an effect new activity and awakened life. The enrollment promises to be larger than ever before, according to Supt. Buell. A few of the schools, notably the Jackson, Douglas, and Grant, report a slight falling off compared with the record of last year, but the record is of the attendance a month after the schools were opened. The enrollments for the various schools are shown in the following:

High school	375
Washington	285
Adams	354
Jefferson	357
Lincoln	326
Webster	152
Douglas	135
Grant	126
Jackson	51
Total	2,618

All the classes were called at the high school this morning and the students were busy with their classification this afternoon. Regular recitations commence tomorrow.

CURRENT NEWS NOTES.

"San Toy" Co. Arrives: The "San Toy" company arrived on their special train of five coaches at 1:10 this afternoon. There are about sixty in the organization and they crowded the depot platform like a small army. The seat sale had not been up to expectations early this morning but was expected to show a great improvement this afternoon and evening.

Drunks Punished: In municipal court this afternoon the following were over-celebrated the day of celebration made their entrances this morning: John Dorrissey, \$5 and costs, sentence suspended; Thomas Nash, \$3 and costs, committed to lock-up; Thomas Parkinson, \$3 and costs, eight days in jail; Frank Sadler, fifteen days in jail, sentenced as a common drunk.

John Enright is in the city spending a few days with relatives before leaving for his post at Manila.

Charles Cleland was a visitor at the state fair in Milwaukee today.

Mr. and Mrs. Fred J. Bailey have returned from an extended trip in the east.

HAZEL NUTS ARE VERY PLENTIFUL

In Fact, All Wild Fruit and Nuts Seem Profuse This Fall—Parties Gathering Them.

Hazel nuts, wild grapes, hickory nuts and wild plums are profuse this autumn. Yesterday several parties of small boys spent the last day of their summer holidays gathering huge bags of hazel nuts and baskets full of wild grapes and plums. The woods on the west side of the road beyond the cemetery seem to be the best field thus far found, although down at Happy Hollow there is any quantity of nuts. A little later the hickory nuts will be ready. Butternuts and walnuts are also profuse, although there are not so many trees of these species around Janesville. Wild grapes seem to be so thick that they would seem as though they would break the vines down. They are in their prime now and ready and bursting for pickers.

RECEIVED SAD NEWS FROM WATERTOWN THIS MORNING

A Telegram to Mr. P. J. McKelque Announced the Death of His Father-in-Law.

Mrs. P. J. McKelque and two children who have been visiting Mrs. McKelque's parents at Watertown, returned home last evening, and this morning Mr. McKelque received a telegram announcing the death of his wife's father. No particulars were given and it is thought that some accident must have happened to him, as he was in the best of health yesterday when Mrs. McKelque left that city for her home.

Memorial to La Conte. An appropriate memorial to the great geologist and scientist, Joseph La Conte, has been erected in Yosemite valley by the Sierra club of California. It is a lodge, built strongly and simply, containing one large room, twenty-five by thirty-six feet, with a large stone fireplace at one end, and a small room on either side the entrance on the opposite end. It is at the upper end of the valley.

Buy it in Janesville.

Primroses. The old-fashioned yellow primroses, which are beginning to blossom in the south of England, have now a competitor called buttercup primrose. It was introduced by W. K. Harris, nurseryman of Philadelphia.

Life's Change. Much Suffering at This Critical Period Saved by Dr. Miles' Nerve.

"Change of Life" is one of woman's greatest and most dangerous troubles. Often it is not recognized, and the distressing symptoms are mistaken for Dyspepsia, Liver, Womb Trouble, etc.

The depressing constitutional effects of Change of Life, and the female Disorders so common at that period, are best treated with a general nerve restorative which will give tone to the entire system—Dr. Miles' Nerve.

The beneficial effects of this celebrated medicine are very quickly felt, and the constitutional disturbances tired over. Pain and anxiety are relieved, and fresh energy infused into mind and body.

It is the medicine which acts on the nerve which regulate the organs of the body.

Such distressing troubles as Backache, Headache, Bearing-down Pains, Bloating, Indigestion, Menstrual Irregularities, Irritability, Dizziness, Loss of Appetite, Tired Feeling, are relieved and cured by Dr. Miles' Nerve.

"My wife was a sufferer from an attack of nervous prostration, brought on by female weakness, and was in very poor health. After reading one of Dr. Miles' advertisements, she concluded to try Dr. Miles' Nerve. She obtained good results from the start, and now after taking several bottles enjoys good health. Words cannot express our appreciation of what it has done for us."—J. J. AUGUSTINE, New Orleans, La.

FREE Write us and we will mail you a Free Trial Package of Dr. Miles' Anti-Pain Pills, the New, Scientific Remedy for Pain. Also Symp- toms of our medicine to discover your case and tell you what is wrong and how to right it. Absolutely Free. Address: DR. J. C. RICE, ELKHART, IND.

Auto Boats Are Here To Stay

The Swift Little Craft Are Winning Thousands of Admirers at Home and Abroad. Philadelphians Taking a Lively Interest—Gotshalk's Nada.

Auto-boat racing has come to stay. Everywhere in America and Europe devotees of the exciting new pastime are multiplying with unceasing rapidity, and many thousands of dollars have been invested in it.

In all the large American cities where straightaway stretches of water are convenient motor or auto boat race meets are being held at least once a week, and some of the records are sensational in every sense of the word.

Auto boating is gaining rapidly in its devotees in Philadelphia, and it is expected that in the near future there will be perfected an organization the object of which will be to foster the sport and to arrange a series of regattas for the waters in the vicinity of the Quaker City.

During the summer many small races have been held on the upper Delaware above Bridesburg and at Haverhill, Pa. No better spot could be found for this branch of sport, and it is the intention to hold next summer many more races, enlarging the scope, making some of them so important that they will attract entries from other cities.

Auto boat racing is comparatively a new sport, and the opportunities for expansion are almost unlimited. Many

clubmen are becoming interested, and scores of automobile enthusiasts are having auto boats constructed so they can enjoy autoing both on land and water.

One of the enthusiastic auto boat racers in Philadelphia is C. A. Gotshalk. He is the owner of the Nada, the little boat which made such fast time in the Atlantic Yacht club's regatta on the Hudson river a few weeks ago. The Nada has never been beaten in her class, which is "K." Thus far the Nada has carried off first honors at the following race meets:

Manhasset Bay (New York) Yacht club, Columbia Yacht club, of Philadelphia, Riverton (Pa.) Yacht club and Atlantic Yacht club. In the Atlantic race Miss Helen Gotshalk steered the Nada to victory. The Nada is a twenty foot boat and fitted with an engine of 3.03 horsepower.

Those who frequent the upper Delaware or who live near the river have

the first impression is that the boat is built wrong, because she has no keel at all, being perfectly round. Contrary to expressed fears, the boat has wonderful buoyancy and sails a true course. The Red Devil is made of three-planks high cedar plank, eighteen feet long and three feet ten inches and tapers from amidships to a point at the bow. Two benches run almost the length of the boat, upon which rests her engine, a four-horsepower gasoline, equipped with jump spark and two sets of dry batteries of six cells each. She has a gasoline tank of ten gallons capacity and is steered like an automobile, her rudder being just abaft amidships.

Her recorded time in a race, on the Delaware in very rough water and high wind, a ten mile course around two stake boats, was forty-four minutes and fifty-eight seconds under the rules of the American Power Boat association. Mr. Balsley contemplates building a thirty footer for next year, and he is anxious to enter regattas to prove the utility of his ideas of auto boat construction.

To avoid a collision it is necessary that vessels approaching each other, especially in crowded thoroughfares, should have some preconcerted and self-understood rules and signals to signify their intentions. For this reason the "pilot laws" have been enacted by the government. Although these do not apply to small launches, auto boats, etc., and are not always regarded by the amateur pilot, every launch owner or person running a launch should have a knowledge of them and should accustom himself to following them as closely as circumstances will allow.

All power vessels are supposed to be equipped with whistle and running lights, and on the larger boats, which are registered, these are compulsory. Small launches, which are easily handled, may be kept clear of other craft and avoid all chance of damage, but larger boats in crowded places should by all means closely observe the following rules:

First.—Boats approaching each other, head-on, should each keep to the starboard (right) and pass on the port (left) side of the other, at the same time giving a single blast of the whistle, which the other must answer. It is not allowable to keep on until receiving the

answering signal, showing that the other has understood.

Second.—When the courses of the two are so far to starboard that there can be no uncertainty, no signals are necessary.

Third.—When the courses of the two are to the port of each other and to pass to starboard would mean a radical change of course, each boat keeps to the left of the other, passing on the starboard side, at the same time blowing the whistle twice, which shall be answered by the other.

Fourth.—When boats are approaching in an oblique direction, the one which has the other on her starboard side must keep out of the way of the latter by changing her course so as to pass astern the other and blowing the whistle once.

Fifth.—When one boat is overtaking another, the overtaking boat may change her course so as to pass to starboard of the other after blowing one whistle and receiving the reply. She may change her course so as to pass to port by giving two blasts and receiving the same reply.

Sixth.—The overtaken boat may show her disapproval of the course taken by the other by blowing several short whistles, but must not change her course so as to endanger the overtaking boat. The overtaking boat must keep clear of the other vessel.

When on any course a power boat and sailing yacht are approaching each other, the power boat must keep clear.

A boat in getting out of another boat's way should not do so by crossing her bow, but by going under her stern. The fact of one boat having the right of way over another does not preclude her to do damage to the other, and each must do her best to keep clear.

It must be borne in mind also that these rules apply to vessels of some where near the same size. With a launch, for instance, it would be unwise to attempt to enforce her right of way over a steamer or large tow-boat. The launch, being of light draft, can be more easily kept clear and should do so in all cases. These rules are simply for guidance and do not give a boat, even when she has the right of way, an excuse for doing damage to an offending boat or forcing her ashore.

Philadelphia Golf Association. An organization that has made great progress in the golfing world is the Golf association of Philadelphia, which was organized in the spring of 1897. It is composed of sixteen clubs, seven of which compete for the Philadelphia cup and the other nine for the Suburban cup.

I cannot name the rare joys, the infinite delights that intoxicate me since taking Hollister's Rony Mountain Tea. 35 cents, ten or tablets. Smith Drug Co.

MOTHER'S Retain Your Youthful Figures.

To be beautiful is to be loved by all. If there lives the woman who is indifferent to this she is yet to be heard of. Yet from time immemorial society has recognized what they thought to be a detriment in the way of such a realization. The bearing of children has meant to them the marbling of physical beauty of figure, without which beauty of face would be of little account. Nothing could be more remote from truth than this; childbirth is purely a natural phenomenon, accompanied by pain, to be sure, but if properly managed no more harmful in its effects upon the human form than any other natural function.

Bradfield's Regulator Co., ATLANTA, GA.

OFFICIAL NOTICE. DOGS IMPOUNDED. Published by the authority of the common council of the city of Janesville.

Office of the City Marshal, Janesville, Wis., September 1, 1904.

To Whom It May Concern: Notice is hereby given that the undersigned has confined and under his control the following described dogs found running at large contrary to the ordinance of said city relating thereto, to-wit: One black and white male shepherd dog, weight 60 pounds; one yellow and white female pointer dog, weight 60 pounds; one male scotch terrier dog, weight 30 pounds; one black female shepherd dog, weight 40 pounds; one yellow female bull dog, weight 30 pounds; one black and white female hound dog, weight 25 pounds.

Notice is further given that unless the owners of said dogs reclaim the same within ten days after the date of this notice, and pay all costs and charges for impounding and keep, of said dog, as required by said ordinance, the said dog will be disposed of in the manner required by said ordinance. JOHN W. HOGAN, City Marshal.

STATE OF WISCONSIN—County Court for Rock County—In Probate. Notice is hereby given that at a regular term of the County Court to be held in and for said county, at the court house in the city of Janesville, in said county, on the first Tuesday, being the 13th day of October, 1904, at nine o'clock a. m. the following matter will be heard and considered: The application of W. J. McIntyre for the adjustment and allowance of his account as executor of the will of May W. Down, late of the city of Janesville, in said county, deceased, and for the assignment of the residue of said estate to such other persons as are by law and the will of said deceased entitled thereto. Dated September 3rd, 1904. By the Court, J. W. RALEY, County Judge.

Skeleton Frame Plow—H. T. Solby, of this city, has for sale something in the way of a plow that can not fail to attract the attention of the farmers. The frame is light and strong, and the iron work is wrought, and very gracefully modeled. The points of the shares are hardened steel and highly polished. An advertisement in another column sets forth its merit, to better advantage than we can. Read it.

Union Meeting Last Evening—The meeting was called to order by J. M. Burgess, Esq. Col. Robinson was elected president and A. A. Jackson, secretary. On motion of J. M. Burgess, Esq., a committee of five consisting of Messrs. Burgess, Sutherland, Burpee, Putnam and Strasberger were appointed to prepare a plan for organization. The committee made the following report, which was adopted:

The committee recommended the organization of a Republican Union Club for the city of Janesville, immediately, with the usual officers, also that the meeting be held by such club at least once a week during the present presidential campaign.

The committee further recommended the appointment of a committee of five persons by this one from each ward and from the city at large, to confer with the city and town committee, with reference to holding a mass county convention for Rock county as soon as practicable. The committee making the above report were appointed the committee to confer with the county and town committees in relation to holding a mass meeting. The meeting then elected the following officers:

John E. Bennett, president.
Vice Presidents—Robinson and S. C. Burnham.

W. A. Lawrence, Corresponding Secretary, G. S. Strasberger, Recd. Secretary.

S. Holden, Jr., Treasurer.

On motion of S. J. M. Putnam a committee of three consisting of Messrs. Putnam, Jackson and May were appointed a committee to procure speakers for the club. On motion of J. M. May, Esq., the secretary was instructed to procure books in which to register the names of the members of the club. On motion of J. M. Burgess, Esq., the club resolved to meet on Tuesday evening of each week, commencing on the evening of Tuesday evening of each week, commencing on the evening of Tuesday the 13 inst. The meeting then adjourned. A. A. Jackson, secretary.

Coming Attractions.

That there is a great demand for John C. Fisher's production of "San Toy" from all over the country is demonstrated by the fact that when the season of forty-two weeks, when the present tour will consume, was booked enough time had been refused to fill another equally long season.

Of the many characters which he has created during a very interesting stage career James T. Powers has

composer, Sidney Jones, has never supplied as great a number of tuneful airs for any production as he wrote for the musical entertainment of Edward Morton's book. There are twenty-six musical numbers in "San Toy" and every one of them is a delight to the ear. Mr. John C. Fisher's production of "San Toy" with James T. Powers at the head of the company is to be at the Grand tonight.

There is hardly a playgoer in Am-

never had a part which he liked as well as "Li" in the Chinese musical comedy, "San Toy." Mr. Powers will have his favorite role in the forthcoming presentation of this successful play by John C. Fisher.

The hit which Miss Margaret McKimney has made in musical comedy the past few years presages pleasant receptions for her in the cities to be visited this season by John C. Fisher's big "San Toy" company. Miss McKimney is playing the soubrette role of Dudley, and from all accounts in a manner that strongly endorses the judgment of those who predicted a bright future for her when she first entered musical comedy.

The music of "San Toy" is of that peculiar kind that is likely to last a long time in popular favor. It has the true ring of originality and its

erica who does not recall the series of successes scored by comedian James T. Powers during his long association with the Hoyt plays and later as the principal comedian in several of the big operatic productions made at the New York Casino. It was the last named line of work that Mr. Powers' fun-making ability was thoroughly developed and he became such a favorite his services were secured by a London manager with whom he remained for several years. At the present time Mr. Powers is under contract with John C. Fisher and is this season appearing in the part of Li in "San Toy," a role which he created at Daly's theatre, New York city. "San Toy" will be the first of the big musical comedies to visit this city the present season.

SNATCHES HIS BABY AND RUNS

Shelbyville Woman Pursuing Her Husband and Child.

Shelbyville, Ind., Sept. 6.—The 16-month-old daughter of Mr. and Mrs. John Leslie Hensley has been taken away. The mother says that her husband, who has been separated from her for some time, forced his way into the house of her parents, where she resides, at Jacob Peters, about a mile south of Acton, and wrested the baby from her arms. When the mother screamed, he drew a pistol, she declares, which he placed in her face and threatened to kill her. He then rushed to the depot in time to board the Cincinnati train and escaped to that city. Officers have been notified to capture him at Cincinnati and the mother is in pursuit of her child. Mr. Hensley was in the employ of the Shelbyville, Indianapolis and Cincinnati Interurban Traction company.

PLAN FOR LONG TROLLEY LINE

Oldest Railroad in Mexico May Adopt Electricity All Over System.

Mexico City, Sept. 6.—The Mexican railway, known as "the queen's own," the oldest railroad of the republic, proposes, if consent be given by the London office, to adopt electricity along the entire line from this city to Vera Cruz. After several meetings the change was decided to be feasible. Later, examination was made into the industrial and financial aspects. A report recommending the change and prepared with the fullest details was sent to London, and the decision now rests with the London office. The system recommended is the trolley system, and it is estimated the company would save approximately \$500,000 annually on coal. The railway was commenced in 1857 and completed in 1873 and its operation has never resulted in the loss of life among passengers.

Friday and Saturday Excursion Rates to Devils Lake, Wis.

Via the North-Western Line. Excursion tickets will be sold at one fare for the round trip plus 50 cents for admission coupon to the Fair Ground. Dates of sale Sept. 3 to 9, inclusive. Tickets limited to return until Sept. 10, inclusive. Apply to agents Chicago & North-Western R'y.

NEW LINES

OF

Suits.

Ready-to-Wear

From now on every day will bring the new ideas in Tailored Suits and Separate Skirts, the result of a three weeks' stay in the New York market. Styles are fully established for the coming season and the new showings bring out all that is best from the eastern manufacturers. The new mannish suits in the popular tourist style are to be much worn—also the neat 28 inch length and are quite full. The suits range in price from \$12.50 to \$30 and the skirts from \$5 to \$10. These lines are of weights just right for present use. Of course only a small part of the new purchase is here but enough to interest early buyers.

JOHN J. KEMP WILL TEST TITLE

Deposed Wisconsin State Treasurer to Appeal to Courts.

Milwaukee, Wis., Sept. 6.—Attorney W. H. Timlin, counsel for John J. Kempf, announced that another suit would be brought in the near future to try the title of state treasurer. "We claim," said Mr. Timlin, "that Mr. Kempf is still the state treasurer and has never been legally removed. I cannot discuss the case further, but our position will be known as soon as we can get around to try the case." Thomas M. Purtell, the newly appointed state treasurer, who has come to Milwaukee to look after the state fair receipts, claims the business of his office is being conducted as usual and that the retirement of Mr. Kempf has not interfered.

LIES DYING AT THE AGE OF 116

James Ferguson, Indiana's "Oldest Man," Was Born in 1788.

Indianapolis, Ind., Sept. 6.—Alexander Ferguson, age 116 years, and since the death of James Lynch, in the Delaware county poorhouse several years ago, widely known as the oldest man in Indiana, is reported dying at his home near Gilman. Ferguson was born on Dec. 24, 1788, in Tyrone county, Ireland, and was one of thirteen children, three of whom, including himself, lived to be more than 100 years of age. One of his sisters, Mrs. Bettie Carroll, died at Frankfort about six years ago, aged 106. Mr. Ferguson's wife, whom he did not marry until he was 60, is living, aged 90. They have several children.

EXPLOSION IS FATAL TO FIVE

Boiler of Trashing Engine Deals Death in Minnesota.

Briceville, Minn., Sept. 6.—The boiler of a thrashing engine exploded on a farm three miles north or here, killing Peter Daley, owner of the engine; Chris Sunde, James Seymour, Abe Foster and Willard Galtion. The bodies of the men were badly mangled. The explosion scattered the wheat stacks and they were destroyed. Foster's body was partly incinerated. George Falsveron, another thrasher, was badly injured. The rear half of the engine was thrown forty rods away into a field by the force of the explosion.

DEATH ENDS SLAYER'S PRAYER

Italian Murderer's Utterances Cease When Electricity Is Turned On.

Auburn, N. Y., Sept. 6.—Giuseppe Versaccia, the accomplice of Antonio Giorgio in the murder of John Vangorder and his half-sister, Miss Farnham, at West Almond, last May, was put to death in the electric chair at the Auburn prison Monday. Giorgio was electrocuted Aug. 30. Versaccia began praying aloud as soon as he was seated in the death chair and he continued his supplications in a high key even after the mask had been buckled over his face, his utterances ceasing upon the application of the current.

DEATH LIST NOW REACHES SIX

Another Victim of Upper Sandusky, O., Catastrophe Succumbs.

Upper Sandusky, O., Sept. 6.—Monday morning another victim was added to the list of killed in the nitroglycerin explosion of Sunday. Lewis Lookbaugh, aged 30, son of Mahlon Lookbaugh, who was killed instantly, died, making the number of fatalities six.

Color Line Causes Killing

Montgomery, W. Va., Sept. 6.—Wade Hilsten, a passenger on a Chesapeake and Ohio train, shot and killed Frank Howard, a negro, because the latter entered the train at Paint Creek and took a seat beside him.

Scranton Tribune: The latest gun on the market proposes to throw a 100-pound projectile twenty miles. It might enable the Japs at last to overtake a Russian retreat.

PAINLESS DENTISTRY

Is what you want if your judgment is normal and natural.

Then there's only one Dentist in Janesville that you want to see.

DR. RICHARDS is a local specialist in Painless Dental Work, and his prices are normal also.

LITTLE FRANCE

A ROMANCE OF THE DAYS WHEN "THE GREAT LORD HAWKE" WAS KING OF THE SEA

BY CYRUS TOWNSEND BRADY

Author of "Commodore Paul Jones," "Rouben James," "For the Freedom of the Sea," etc.

Copyright, 1901, by D. Appleton & Co., New York.

CHAPTER XII.

THE SAILOR AND THE MOB.

LIEUT. DENIS DE VITRE had been in peril of his life many times during his short but exciting career, but he had never come so near death as within the past few months. Indeed, His Grim Majesty, the King of Terrors,

had stared the young officer full in the face and his cold hand had been fairly clasped around his throat. It would have gone hard with him but for the timely interference of a friend.

De Vitre was a hardy, bold young man, who loved fighting as he loved sunlight, on account, perhaps, of the Irish touch in his nature from a far-off strain of the Emerald Isle on the distant side. One of the higher Canadian noblesse, whose family was of first importance in New France, owning wide possessions and high in favor in the governor's court, he had received a commission in the navy of France. While in command of the boats of a scouting expedition in the lower St. Lawrence he had been captured by Admiral Durell's squadron. When the fleet of Vice Admiral Saunders entered the river and started upon that toilsome and dangerous ascent to Quebec the vice admiral had required his captives, of whom De Vitre was chief, to pilot the great ships up the uncertain river. The young officer, for one, had peremptorily refused to do this, and neither threat nor appeal had induced him to recede from his position.

The process of intimidation had indeed been carried so far as to cause Monsieur de Vitre to be mounted upon the rail of a ship with a rope around his neck, the other end of which was rove through a block at the top-sail yard-arm. Had it not been for the friend mentioned he would have been hanged for his contumacy, and to discourage—or encourage—the other pilots, men of less rank and station, who showed a disposition to emulate his refusal.

From this difficult—and, for a man of birth and station, unpleasant—position the Frenchman had been rescued by the intercessions of the young captain of the ship, a brave man, who loved courage and resolution even in his enemies. As his intercession was seconded by the influence of Gen. Wolfe, to whose request Admiral Saunders graciously deferred, it was efficacious in releasing Monsieur de Vitre from his appalling and unpleasant predicament.

Other men were found with less exalted views of their duty to their country who could be persuaded by the means which failed so signally in the case of de Vitre, and the ships were accordingly piloted up the river. Meanwhile, his quality having been demonstrated by his heroism, de Vitre was held a close prisoner in the fleet. He had refused to give his parole, and accordingly had been closely confined, and was carefully guarded.

A winning tongue, a little money, and specious promises of ultimate reward had made a friend for him among his guards, and the suborned soldier had at last found means to supply him with a British uniform. In the hurry and confusion of the embarkation of the soldiers for the embarkation of the Plains of Abraham, de Vitre had succeeded in joining himself to one of the landing parties without attracting attention. The captain of the Sutherland, on which he had been held prisoner, was surprised the next morning to find the sentry bound and gagged—by his own collusion, of course, though that was unknown—in de Vitre's room and his prisoner zone.

However, there was so much business of moment on hand the day of the battle that no search was made for him; indeed, none could be made, and the certain fall of Quebec, which everybody realized must take place when the news of the victory was brought to the fleet rendered his pursuit useless. It was too late for even a man of his courage to effect anything of importance then. His knowledge of British affairs would be of no service now.

In the natural course of events, too, de Vitre would fall into the hands of the English again in a few days. Meanwhile, as he was a pleasant fellow, agreeable and debonair, his captors were rather glad that he had the privilege of a few hours of liberty, especially as it was known that the inspiration of his escape was the most beautiful woman in New France.

De Vitre had met with no opportunity of escaping from the English lines until the battle was joined. He had been compelled by the exigencies of the situation to point his gun at his own countrymen, and though he took care it was not loaded with ball, the mere motion gave him exquisite anguish. In the smoke and confusion of the battlefield, however, he at last found occasion to mingle with the retreating French. In the panic terror of their retreat no one in the crowding, pushing mob paid any attention to him, and he gained the city with the rest of the fugitives through the St. Louis gate. Forcing his way through the multitude he ran rapidly down the street toward the place where dwelt the object of his adoration. He found her in the doorway of her house, bending over the prostrate form of a small man in the blue and white uniform of the British navy.

"Mademoiselle de Rohan!" he cried in great surprise, stopping short at the

sight. "What is the meaning of this?"

The young woman looked up as he called her name, rose to her feet as she recognized him, and with an expression of withering scorn and contempt deliberately turned her back upon him. For the moment the stranger was forgotten. De Vitre gasped and turned pale with astonishment.

"Mademoiselle de Rohan!" he cried again, "do you not know me?"

"I know no one," she answered, half-turning toward him with the contempt deepening upon her beautiful features, "who, born in France, wears that uniform, which even you disfigure!"

"Disgrace, mademoiselle!" he cried, straightening himself up, his face flushing. "What mean you? Oh, this—why—"

"By God!" exclaimed a coarse, rough voice at his side, "it's de Vitre!"

The young Frenchman faced about and saw himself confronted by a grenadier of the regiment La Sarre, who had stopped and was looking menacingly at him. He was followed by three regular soldiers from the various regiments and a sailor from Vanquelin's squadron.

"De Vitre, the traitor!" cried another.

"He who piloted the English ships up the river!" exclaimed the sailor.

"The man who betrayed New France!" shouted a third.

The feeling soldiery stopped and with several gathered about the little group in the doorway.

"Well, we are beaten now," remarked the soldier who had first spoken, who held the rank of a sergeant, "but I guess we can hold the town long enough to hang you, monsieur. I saw you in the English ranks when they charged upon us—curse them! And you brought up the ships—"

"It's a lie, a dastardly lie!" cried de Vitre desperately.

"What are you doing with that English uniform on?" asked another, amid murmurs of indignation from the crowd, for the street was now blocked with people.

De Vitre, seeing the hopelessness of his situation, backed up against the wall and instinctively felt for his sword. Unfortunately for him he was wearing a private soldier's uniform, and he had thrown away his gun in that mad rush for the St. Louis gate. He was alone, unarmed and helpless before the mob.

"It's a fearful mistake!" he shouted. "My friends, I am innocent! I can explain! Hear me!"

His voice was drowned in yells and execrations. The soldiers and people

had been so hurried and wrought upon by the defeat of the morning that a sinister desire for revenge on some one was added to the fierce yet malevolent passions so easily awakened in the Gallic mob. They wanted a scapegoat, and here was one to hand.

"Mademoiselle," cried the unhappy Frenchman, drawing himself up and turning to the girl, who stood spell-bound before the appalling display of the fury and passion of the people, "I swear to you upon my honor that I am innocent! Vive la nouvelle France! Say that you believe me before I am taken! On my soul I believe this rabble intends to kill me!"

Anne de Rohan hesitated. Honestly

rang in the young man's voice, honor looked out of his eyes—and love too—yet things looked suspicious.

"Well, will you come with us peacefully, or—?" interrupted the sergeant, with a grim and menacing gesture.

"One moment, my friend," cried the young man lightly, having recovered his coolness and having discovered the folly of expostulation.

He looked appealingly at the young woman.

"I believe you," said Anne de Rohan, suddenly extending her hand to him. "Messieurs," she cried, turning to the crowd, "Monsieur de Vitre gives me his word of honor that—"

"Oh, bah!" exclaimed the sergeant, "the honor of a traitor to the woman he loves!"

"Let us kill him where he stands!" shouted one.

"To the lantern with him!" roared another.

"No, my brave friends," said the sergeant coolly, "order if you please. He goes to the governor. Come, monsieur. Fall back, gentlemen, and give way. A moi, mes camarades!"

"Mademoiselle," said de Vitre hurriedly, as the soldiers surrounded him and prepared to force a way through the crowd, "I can now face anything with a light heart. You believe in me."

"I believe you," said Anne de Rohan, suddenly extending her hand to him. "Messieurs," she cried, turning to the crowd, "Monsieur de Vitre gives me his word of honor that—"

"Oh, bah!" exclaimed the sergeant, "the honor of a traitor to the woman he loves!"

"Let us kill him where he stands!" shouted one.

"To the lantern with him!" roared another.

"No, my brave friends," said the sergeant coolly, "order if you please. He goes to the governor. Come, monsieur. Fall back, gentlemen, and give way. A moi, mes camarades!"

"Mademoiselle," said de Vitre hurriedly, as the soldiers surrounded him and prepared to force a way through the crowd, "I can now face anything with a light heart. You believe in me."

"I believe you," said Anne de Rohan, suddenly extending her hand to him. "Messieurs," she cried, turning to the crowd, "Monsieur de Vitre gives me his word of honor that—"

"Oh, bah!" exclaimed the sergeant, "the honor of a traitor to the woman he loves!"

"Let us kill him where he stands!" shouted one.

"To the lantern with him!" roared another.

"No, my brave friends," said the sergeant coolly, "order if you please. He goes to the governor. Come, monsieur. Fall back, gentlemen, and give way. A moi, mes camarades!"

"Mademoiselle," said de Vitre hurriedly, as the soldiers surrounded him and prepared to force a way through the crowd, "I can now face anything with a light heart. You believe in me."

"I believe you," said Anne de Rohan, suddenly extending her hand to him. "Messieurs," she cried, turning to the crowd, "Monsieur de Vitre gives me his word of honor that—"

Good Stories Told About Famous Folk

Young Elkins and
Grandpaw—Henry Van
Dyke and the Cham.
Sulzer and Henry
Clay—Premier Bal-
four's Gallantry—Irv-
ing and the Thunder

WHEN the news reached Wheeling, W. Va., that Henry G. Davis had been nominated by the Democrats for vice president his young grandson, Davis Elkins, a son of Senator Stephen B. Elkins, exclaimed: "Goal for grandpaw! Father edged around for the vice presidency, and Gorman has hustled to be president, and now grandpaw is honored without even wadding his head for it. It's all in the family, and it's funny to think grandpaw beat them all."

Senator Davis made his start as a brakeman on the Baltimore and Ohio railroad, one of the oldest railroads in the United States, and the railroad business was in its infancy when he engaged in it. He ran as a freight brakeman between Baltimore and Cumberland. After he had been working for a time as brakeman a wreck occurred. The road had to be cleared up. He rallied the men and went at it with energy and soul.

While thus engaged the president of the road noticed him and promptly remarked to the young brakeman, "We have use for you in more important work." He was promoted to be a conductor, and other promotions steadily followed. Work is his motto.

Miss Ethel Barrymore relates a story of Sir Henry Irving, England's foremost actor, in whose support she appeared when he produced "Peter the Great." As told in Lippincott's Magazine it appears that at a rehearsal of the play in question at the Lyceum theater, in London, a wonderful climax which was to be heightened by the effective use of the usual thunder and lightning. The stage carpenter was given the order, the words were spoken, and instantly a noise which resembled a succession of pistol shots was heard off the wings. "What on earth are you doing, men?" shouted Sir Henry, rushing behind the scenes. "Do you call that thunder? It's not a bit like it."

"Awfully sorry, sir," responded the carpenter, "but the fact is, sir, I couldn't hear you because of the storm. That was real thunder, sir."

Arthur J. Balfour, premier of Great Britain, has a gallant way of paying pretty compliments to ladies. Driving through Kingston one day, he passed a huge red motor car that stood before an imposing mansion of graystone.

A young girl in a white gown sat in the car, and as the premier gazed by she bowed to him and smiled. But the premier did not appear to see her.

The young girl looked embarrassed and vexed. Then she took hold of the wheel of her machine, pressed with her small foot the bulb that made the horn toot gruffly, and swiftly she shot after Mr. Balfour.

Soon the great car overtook the carriage and halted. The young girl, an old friend of Mr. Balfour's, extended her hand, and as he took it she said reproachfully: "You passed me awhile ago without looking at me."

With a radiant smile and inclination of the head, the premier answered: "If I had looked at you I couldn't have passed you."

Congressman William Sulzer, who represents the Tenth New York district in the house of representatives and who is often heard in championship of Democratic policies in the popular branch of the national legislature, is said to bear some resemblance to Henry Clay. He wears his hair much as the silver-tongued statesman of fifty years ago did.

and is clean shaven and square jawed. Mr. Sulzer naturally feels complimented when he is compared with the great Kentucky orator, and his friends have encouraged him to believe in the fancied resemblance. A New York man relates that Mr. Sulzer once heard that in his youth an aged negro barber in Washington had shaved Clay. Sulzer went to the barber for a shave. Much to his surprise the barber made no mention of his resemblance

Searchlight and Torpedo. The practical use of the searchlight is only 700 yards, while a torpedo can be used effectively at from 1,200 to 4,000 yards.

Mother of Twenty Children. Having previously borne sixteen children, the wife of a shoemaker at Wraz, in Bohemia, has now had four at a birth, of whom three are living.

to Clay, and after the shave was over Sulzer referred to the subject.

"Sun," said he, "do I remind you in any way of Henry Clay?"

Sun put the razor back in the case with much deliberation and hesitated for some time. Sulzer waited patiently. "Well, sah," answered Sun at last, "I think yo' does, sah. Yo' breff, sah, is powerful like Mr. Clay's."

Senator John C. Spooner of Wisconsin, who is at odds with Governor La Follette, delights in conversational lita. One day Senator Tillman and Senator Spooner were having one of their spats. They are excellent friends, but badger each other every time they get a chance. Tillman had been quoting precedents in his argument against the new celebrated constructive recess—between the time congress adjourned the special session and met in regular session. He referred to statements made by Charles Sumner and John Sherman, and remarked that these were both great men. Senator Spooner arose as if to interrupt.

"I don't suppose," said Senator Tillman, "that the senator objects to my eulogizing members of his party?"

"No," said Senator Spooner, "but I can't understand why you should wait until they are dead."

"I was green enough," said Senator Bailey of Texas in a speech, "if I may use that word in this chamber."

"Go on and use it," broke in Senator Spooner. "We know how well it fits."

At the dinner of the Periodical Publishers' association in Washington not long ago the toastmaster established a ten minute rule for some speakers and a five minute rule for others. Dr. Finley, president of the College of the City of New York, was allotted five minutes, but he spent his speech out very thin over about fifty minutes. When Finley had finished, the toastmaster, Dr. Hamilton Wright Mable, arose and said with much meaning, "We will now have another five minute speech."

And everybody but Dr. Finley laughed and applauded.

Dr. Henry Van Dyke's speech at this dinner was the hit of the evening. He was giving advice to young and aspiring authors on how to get their work accepted by various magazines. He said the stories and poems must be adapted to the fads of the magazine selected to attack. "If I were writing on the clam for the Outlook (the toastmaster's magazine) I would send 'A Quail in a Heerant Clam,'" said Dr. Van Dyke. He quoted:

Low dust thou lie amid the languid ooze
Because thy slothful spirit doth refuse
The bliss of battle and the strain of strife
Rise, brave clam, and lead the strenuous life!

President Roosevelt laughed so much at this quatrail that he almost fell out of his chair.

J. T. Trowbridge, whose name for fifty years has been a household word and whose writings have attained an exceptional popularity among the younger readers, tells a good story on himself in his recent book of literary reminiscences, entitled "My Own Story." He writes:

"After I had been so far prospered, as to be able to place a small deposit in a savings bank the father of a family once besought me for a loan of \$50. When I told him, to my sincere regret, that I had no such sum at my command, he made a answer that his quarter's rent was due, that he had been unable to collect some bills he had relied on to make up the needed sum and he didn't know which way to turn if I couldn't help him. 'I haven't it,' I repeated, 'but I thought of my poor little savings bank deposit and of a family man's natural distrust at being unable to pay his rent—I might possibly raise it for you.' Although I knew there would be a loss of accumulated and prospective interest if I withdrew my money from the bank, and I could not think of taking interest from a friend, his expressions of gratitude paid me in advance for any such sacrifice. I went at once and drew the \$50, which I handed him without saying how I had come by it. He paid me in a week or two, thanked me warmly and added this naive remark: 'If you hadn't lent me the money, I should have had to take it out of the savings bank and have lost the interest.' I smiled and held my peace."

J. T. TROWBRIDGE.

London's New Craze. Fashionable London society has invented a new craze in the shape of "war dinners," served in the latest styles of Russian or Japanese cooking and cooked after the methods of those countries. From a gastronomic point of view, the Russian dinner, with its vodka, is perhaps the most successful, as the Japanese cooks serve up some weird dishes which no self-respecting European would touch under ordinary circumstances, and the diners must sit on the floor. Fashion is, however, a taskmaster, not a servant, and fashion decrees that whoever wishes to be smart must eat these dishes no matter how they taste.

Rare Birds. Commenting on the craze for killing rare birds wherever they may be found, a writer in London Truth says: "I should have thought that the fact that a bird is rare would be a reason for not killing it, make him rarer."

WOMEN IN PACKING USES

Fair Sex Have Invaded This Haunting Concerns And Now Two Thousand Are Employed

The number of women in Chicago stockyards has almost doubled in the past year. At the present time 2,000 women are employed there. It is true that a little less than half this number are engaged in the packing work described, the majority being employed in painting and labeling cans, wrapping and packing soap and butterine. To such work the butchers make no objection. But the number engaged in the less pleasant occupations is gradually being increased. Last summer the sausage makers at the stock yards went on strike. The strike was not sanctioned by the national officers of the organization, and when the men refused to return to work the packers proceeded to fill their places with women. The union could not object. The men had struck without authority. The women are at work to-day, filling, linking and trimming sausages. The men are seeking work. What wages the women are being paid is known only to themselves and their employers. They are Lithuanian peasant women. Few speak the English language. To organize them would be practically impossible, even were it advisable, which the union officials do not believe. But at frequent intervals a few men are laid off and a few more women hired. Can the union stop the innovation?

ART OF PICKLING STEEL

Process First Tried in This Country at Williamsburg Bridge in New York City.

The pickling of structural steel was probably first done in this country in connection with the steel flooring of the Williamsburg bridge in New York City, declares Engineering Record. The specifications for the 11-inch channels on which the paving blocks are carried required them to be cleaned and painted with pure linseed oil while still hot from the rolls. When it came time to execute the work these specifications were changed so as to permit the metal to be cleaned in pickling baths, which has long been done to a considerable extent in Europe. In the case of the channels for the Williamsburg bridge the shapes were first boiled in a ten per cent solution of caustic soda to take off grease, and were then rinsed in boiling water. After they were dipped into a solution of sulphuric acid until all the oxide was removed. After being rinsed in boiling water they were dipped into a solution of sulphuric acid until all the oxide was removed. After being rinsed in boiling water, dried over steam pipes and then treated by the Sabin process of enameling.

HOW SEEDS GERMINATE.

Writer Describes Method by Which Plum and Apricot Tree Enter on Stage of Life.

"The method by which a plum or apricot tree makes its entrance upon the stage of life is interesting," says Pearson's. "The hard shell of the plum stone splits it into halves through the strenuous power of the embryo within. Out of the kernel the little root emerges and grows fat, while the nutty kernel also divides into its halves, and each gradually transforms itself into thick fleshy green leaves which show above the ground, while between these peculiar leaves two pretty, bright, ordinary pairs of green leaves above ground—one pair fat and full of food, which they keep passing on to the plum infant, the other pair thin and delicate, but daily growing stronger to take up the task of manufacturing food, not merely handling on stores, so that the plant may grow and flourish when the stores are finished."

BANNERS AT CHINESE BURIAL

Rich and Important Oriental Is Laid Away with Much Pomp and Splendor.

When a rich and important Chinaman dies his funeral is conducted with much pomp and splendor. His friends and relations, instead of sending wreaths, send innumerable banners. These are made of white silk, with inscriptions beautifully worked in black velvet, and express the senders' good wishes to the deceased himself, or to the members of his family for many generations. On the day of the funeral these banners are carried by hired men, who are all dressed alike for the occasion. After the funeral, which lasts several hours at the cemetery, is over, the banners are all brought back, and eventually grace the rooms of the late Chinaman's house.

London's New Craze. Fashionable London society has invented a new craze in the shape of "war dinners," served in the latest styles of Russian or Japanese cooking and cooked after the methods of those countries. From a gastronomic point of view, the Russian dinner, with its vodka, is perhaps the most successful, as the Japanese cooks serve up some weird dishes which no self-respecting European would touch under ordinary circumstances, and the diners must sit on the floor. Fashion is, however, a taskmaster, not a servant, and fashion decrees that whoever wishes to be smart must eat these dishes no matter how they taste.

Rare Birds. Commenting on the craze for killing rare birds wherever they may be found, a writer in London Truth says: "I should have thought that the fact that a bird is rare would be a reason for not killing it, make him rarer."

Cleanest Town in the Land. The cleanest town in the United States is said to be Shakertown, Ky., inhabited by Shakers. It has a large brick hotel, but no business houses.

SAGE CULTURE ON FARMS.

How to Raise a Crop That Easily Can Be Cared For by the Wife or the Girls.

Sage seed should be sown broadcast when the ground is in good condition or else may be propagated in boxes and afterwards reset. One packet of English sage seed if fresh should give a large supply of plants, which may be gathered from the bed; but if a permanent supply is wanted, transplant the young plants to a bed or border in September, so as to become well rooted before frost. A border or row so set will repay all the time and labor expended as, when once set and well rooted a sage bush or plant will live for years. Plants in the middle states require no protection, ordinarily, but in eastern and northern sections some covering will be necessary, as straw, litter, etc. Top dress in the fall and spring also.

As soon as signs of shoots appear or before, cut back the growth of the preceding year, to within three inches of the main stalks; this induces vigorous growth and innumerable shoots will be thrown out. Cut out all flower stalks as the growth of the plant is retarded by the ripening of the seed, cut the shoots when six inches long, choosing the evening of a cloudy day if possible. When dry store away in clean paper bags or boxes. When wanted for use, dry in the oven a few minutes and rub through a sieve. Keep in a wide-mouthed jar or bottle; then it is ready at a minute's notice.

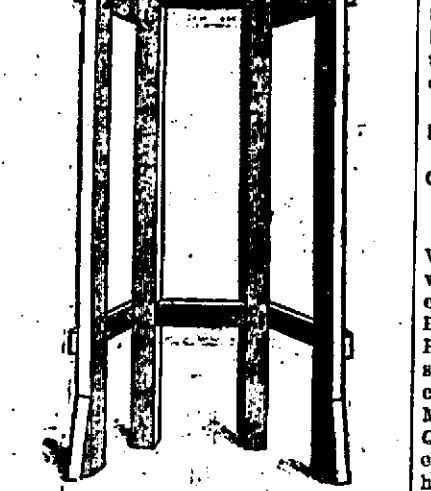

The raising of sage may be made a source of revenue by the farmer's wife. Prices range all the way from 25 to 50 cents per pound. Selling to private customers is the best plan. Housekeepers in cities and towns are generally glad to get fresh, home-grown sage and are willing to pay a fair price. "Store" sage is very unsatisfactory, being composed principally of stems. Seeds from sage plants can be saved and sown the second year.—Mrs. A. C. McPherson, in Ohio Farmer.

BAG-HOLDER FOR FARM USE

Equal to Those Sold in Stores and Can Be Made at Home at Trifling Expense.

Various different bag-holders are to be found at the hardware stores, but many farmers do not invest in all the conveniences for obvious reasons. The bag-holder illustrated here can be made in a little while by any one who can handle tools at all.

The strips of lumber may be about two inches wide, and the up-and-down

A CHEAP BAG HOLDER.

pieces cut nearly four feet long. Four wire nails driven through them at the proper height and bent up so as to form a hook, will do to hold the bag in shape, and grain, potatoes, etc., may be poured or shoveled in.

The cost is almost nothing, while the convenience is great. I notice that they use just such a contrivance at our feed store.—Farm and Fireside.

ALL AROUND THE FARM.

If the farmer can not raise pure-bred stock he should come as near to it as possible.

Sorghum cane is a good crop to grow to use as a soiling crop late in summer or early fall.

No matter what the business is, it needs and must have close attention to result in success.

The aim in keeping stock should be to secure the most rapid and largest growth at the least cost.

Plenty of dry bedding not only makes it more comfortable for the animal, but insures better health.

If at any time an animal on the farm gives indications of running down, give it better food and better care.

The keeping of the farm implements in a good condition is an important factor in the economical cultivation of the crops.

MAN DONS SKIRTS

TO WIN \$100 BET PLAYS IN MIXED FOURSOMES

Had Wagered That No One Would Suspect That He Was a Man Masquerading and Has No Trouble in Taking Down the Money.

Springfield, Mass., Sept. 6.—A great gallery followed Miss B. Witching of Boston over the links of the Springfield Country Golf club Labor day. Miss Witching played mixed foursomes with P. C. Powers. All the other men agreed that the Boston player is well named. They envied Powers his partner. Miss Witching wore a most becoming cap of white canvas, a check shirtwaist and a skirt that set off the well rounded figure they included.

Congressman F. H. Gillet deserted a cool corner on the clubhouse veranda to be presented to Miss Witching, and was particularly attentive to her—while the game lasted. Not only was she pleasing to look upon, but she played splendidly.

Almost Wins the Game. Loud applause greeted many of her strokes. Many of the women remarked that she had a masculine style, but these women were not surrounded by their accustomed number of admirers. So well did the girl from Boston and her partner play that they came within one hole of winning the game from the finest field in the club's history. When the game ended Miss Witching received compliments with modesty and condolences with resignation.

Then she tripped gracefully into the men's dressing room and proceeded to divest herself of cap, shirtwaist and skirt.

Leader in Society. Miss B. Witching was and is Chester W. Bliss, a leader of the younger set in society, and assistant general manager of the Boston & Albany division of the New York Central railroad. Bliss bet \$100 he could play as a woman in a mixed foursome game, and no one would suspect that he was a man masquerading. It is understood the wager was with R. K. Clark, manager of the Holyoke plants of the American Thread company.

Bliss is even now for a practical joke played on him. He lost a hat on the latest Yale-Harvard football game. A chum of his started an endless chain of letters informing Bliss' friends that he sadly needed a hat. So many bulky packages were addressed to Bliss that they crowded the post-office, and Postmaster Hyde loaded them on a wagon and sent them to Bliss. The young millionaire refused to accept them, and a pile of shocking bad hats—all of them, had seen better days—were taken to the city dump.

ILLINOIS BAPTISTS' OFFICERS

Convention of Wood River Association Is Held at Bloomington.

Bloomington, Ill., Sept. 6.—At the Wood River Baptist Association convention the following officers were elected: Moderator, Rev. Ernest Hall, Bloomington; assistant moderator, Rev. S. P. Cheers, Alton; recording secretary, J. N. Nichols, Champaign; corresponding secretary, G. C. Mason, Monmouth; treasurer, T. L. Smith, Quincy. The officers comprise the executive board. The association will hold the next annual meeting in Springfield on the first Sunday in September, 1905.

SLAIN BY BANDS OF NEGROES

School Superintendent Is Assassinated in Florida.

Jacksonville, Fla., Sept. 6.—The county superintendent of schools of Leon county has been assassinated. Six negroes have been arrested. One confessed that they were members of the "Before Day Murder club," an organization similar to that at Statesboro, Ga. All were taken to Live Oak for safekeeping. Innocent negroes are in great alarm.

BOY IS KILLED BY FOUL BALL

Wendell Miller, Son of President of Ruskin University, Is Slain.

Chicago, Ill., Sept. 6.—Wendell Miller, son of George McKay Miller, president of Ruskin university, was struck by a foul ball and killed while in the grand stand watching a ball game on the college campus at Glen Ellyn. The ball struck him in the temple and he died shortly afterward. He was 12 years old.

Missionaries in Session.

Champaign, Ill., Sept. 6.—The Illinois Christian Missionary society opened a four-day state convention here Monday night in the University Place Christian church with nearly 300 delegates present. The conference was led by Miss Anna M. Hale of Athens.

Site for Palace of Peace.

Brussels, Sept. 6.—The government of The Netherlands has finally decided to erect the palace of peace given by Andrew Carnegie in the woods of Scheveningen, on a hill overlooking the ocean.

Congo Rubber Workers.

Every year 5,000 tons of Congo rubber are sold in the market at Antwerp. This rubber is gathered by natives, who get 60 cents a week and pay their own expenses.

Origin of Lathes.

Nature, as well as necessity, motivated the invention of the lathe, the first of machine tools. It was built originally between two adjacent trees near which grew a springy sapling. Lathes like it are used to-day in some of the Asiatic countries.

A New Kind of Shoe for Women

It is a matter of wonder and surprise to us that women will still pay \$3.50 for a shoe with the old style leather heel and insole when the same money will buy the new Treadeasy Shoe with full rubber heels, cork cushion insoles, and every new wrinkle of merit known to shoe-making. After you've once worn Treadeasy Shoes you would as soon think of taking up your carpets and clattering around on bare floors as going back to the old hard heel shoes.

D. J. LUBY & CO.

J. M. BOSTWICK & SONS.

The Time Get Posted...

September is the month that many people take to visit the various stores to get ideas of the new things for fall and winter. We invite people to call often and are only too glad to show them through our many departments. Our clerks have been instructed to spare no pains to make one feel that a ready welcome awaits one here. It takes time to decide on the many things necessary to carry one through the season, and how is a body to know what to get without looking, figuring, planning. We run our store to accommodate the great public and aim to have our salespeople always courteous. Having about 40 people in our employ it is difficult to know of all that takes place. Any inattention should be promptly reported; otherwise we would be entirely ignorant of it and sometimes are censured for the actions of a clerk, which we know nothing about.

Over \$30,000 Worth of New Fall Merchandise Already Received...

Every department lends its quota of new things for the early buyers. Orders were placed in the early spring for hundreds of cases of fall and winter goods which we bought at lower prices than we can buy the same goods for today.

STEAMERS LOST AT SEA

Strands on Rocks and Other is Embedded in Sand.

San Francisco, Cal., Sept. 6.—The British ship Drumburton, which went wrong on Point San Pedro on Saturday night, remains on the rocks and will be a total loss. The coast steamer Maggie, which ran into the breakers south of the Golden Gate Sunday night, is firmly imbedded in the sand. A little hope of saving her is entertained.

LAND IN NEW ORLEANS

Causes Sensation by Filing on \$1,000,000 City Property.

New Orleans, Sept. 6.—Application for the purchase of property valued more than \$1,000,000 within the city limits on Lake Pontchartrain, the fashionable summer resort, has been made by W. G. Turner under the United States law, on the claim that it is public land.

Applaud Concessions to Jews.
St. Petersburg, Sept. 6.—The press, the pro and anti Semitic, applauds Imperial ukase extending the rights of the higher class educated Jews, and soviet papers express the hope and belief that further concessions will be granted.
